PERSONALITY INFORMATION

I am a young computer scientist with a Master's degree. I have worked several years in computer research labs and in a company of the Forex industry. I have discipline in doing my job and meeting deadlines. As far as work ethics is concerned, I understand that I must be trustworthy. I also like to learn and I aim to develop myself and become better both as professional and as a human.

JOB EXPERIENCE

May 2020 - Present

Java Software Developer in XM, TP Servglobal Ltd, a Forex broker company.

- I've worked on Spring Web MVC & Spring Webflux projects.
- I've worked with JBoss WildFly Server using JavaEE.
- For the purposes of a website, I made my own pagination implementation, using JavaScript & jQuery for the frontend, and for the backend, Java and Oracle SQL.
- I've implemented an algorithm to send email reports, comparing data from databases, using Spring Boot, REST calls & the SendGrid Java API.
- I've worked on CI/CD automations with Jenkins & GitLab CI while also following the Gitflow Workflow.
- I've used Postman to execute REST calls.
- I've used GitLab, Nexus, SonarQube, Graylog, New Relic
- I've used Amazon AWS and specifically EKS, ECS.
- I've used ELK Elasticsearch.
- I've used RabbitMQ and Kafka.
- I've used React JS for frontend development.
- I've worked on Terraform.
